Summary

Hi! I'm a final-year student at Gyan Ganga Institute of Technology and Sciences. I enjoy building web applications that are both functional and user-friendly.

I'm always looking to learn something new, whether it's tackling problems on LeetCode or exploring new concepts. I prefer keeping things simple, both in code and in life, and I believe small details make a big difference.

When I'm not coding, I love meeting new people and collaborating to bring projects to life. Feel free to reach out if you'd like to connect or chat!

Experience

Udyam (E-Cell) , GGITS

2 years 1 month

Technical Team Lead

September 2023 - August 2024 (1 year)

Jabalpur, Madhya Pradesh, India

Gyan Ganga Institute of Technology Sciences

Technical Team Member

October 2022 - December 2022 (3 months)

Jabalpur, Madhya Pradesh, India

As an Ex-Technical Team Member at Webmasters, I played a pivotal role in managing and maintaining our college's website. During my tenure, I actively contributed to the enhancement and upkeep of the site, ensuring it remained a valuable resource for students and faculty alike. Notably, I had the privilege of being part of the team responsible for updating the website during the NBA accreditation process, which sharpened my web development skills and deepened my understanding of delivering accurate and timely information online.

In addition to my responsibilities for the college website, I frequently took the initiative to update the website of the Electronics and Communication Engineering (ECE) department. This experience not only showcased my dedication to maintaining a dynamic online presence for the department but also allowed me to hone my web development expertise in a specialized academic context. My time with Webmasters was not only a valuable learning opportunity but also a chance to make a positive impact on our college community through efficient web management.
